

St Edmund's Suggested Weekly Plan

Date w/c 4th May

Year: Y2

Outlined below are a range of activities that you may want to follow as part of your home learning schedule. We recognise that each family will have different needs and resources and therefore this should only be used as a guide. We felt it was important to include some useful information to help support you.

For the summer term we will continue to keep in contact with you via the school website and by email. We would encourage you to use the new dedicated year group email (year2@st-edmunds.richmond.sch.uk) to update us on the children's learning at least once a week. We are also available to be contacted regarding any additional support we can provide.

If you are happy for us to share some of your work on the school website - please state on your e-mail that you give us permission to do so.

E.g. 'I am happy for this work to be shared on the school website.'

As we are now in the summer term, we will be giving your child a certificate for the work they have completed and emailed to us. If we have not received any work yet please email in their work to year2@st-edmunds.richmond.sch.uk.

Projects for the Week

RE - RE: The story of Levi

This week in RE think about the different choices you make. What good choices have you made? Jesus gathered groups of people to help him spread the Good News. He did not choose people who did nothing wrong, but those who would follow him faithfully and would be sorry for what they had done. The bible teaches us about one of these people, Levi, who was called by Jesus to follow him, even though he had made wrong choices. Read the story of Levi from Luke 5:27-31 and watch the clip. Talk about what happens and think about how Levi might have felt being called by Jesus even though he made mistakes. https://www.youtube.com/watch?v=P_OfCjTCEq4

Task: Write a post-card from Levi to Jesus thanking him for inviting him to a party and for forgiving him.

Science: Spring - What is under my feet?

What is under my feet? If you have a hoop you can use this. Alternatively draw around your foot, cut it out, and keep the cut out foot and the hole that is left. Take this outside and place it down. What is inside the hoop? You may have grass, clover, daisies, and insects. Make a tally chart to show what you found. You could have a close look at some of the things through a magnifying glass. Take the hoop to another location and compare.

Don't stress or worry if you don't get everything done - let us know and we can adjust things to suit you. 😊
