There are 6,000 Lego bricks in a box.

Vicky and Conor take 900 bricks each. Mollie, Tim and Roger share the rest of the bricks equally.

How many Lego bricks does Mollie get?

$2 \times 900 = 1800$

$6000 - 1800 = 4200$

$4200 \div 3 = \underline{1400}$
