PHYSICAL EDUCATION POLICY

Committee responsible for policy	Curriculum and Achievement
Co-ordinator	Carolyn Rayner Robyn Morris
Statutory/Non-statutory	Non STATUTORY
Frequency of Review	Free to determine – every 3 years or earlier if required
Date of last review Approved by Staff/ SLT/Committee/FGB	September 2015
Date of next review	September 2018
Purpose of policy	To outline the purpose, nature and management of PE at St Edmund's school
Consultation	Staff
Links to other policies	Health and Safety Medical conditions

Introduction

Physical Education is a foundation subject within the National Curriculum. This policy outlines the purpose, nature and management of the physical education programme taught in our school.

This policy reflects the consensus views of all staff and has been approved by the Governing Body. The implementation of this policy is the responsibility of all staff for it reflects the entitlement our children have to a soundly planned curriculum.

Policy Statement

The school believes that physical education in a safe supportive environment, is a unique and vital contributor to a pupil's physical development and well-being. A broad and balanced physical education curriculum is intended to provide pupils with increasing self-confidence in their ability to manage themselves and their bodies within a variety of movement situations.

Progressive learning objectives, combined with sympathetic and varied teaching approaches, endeavour to provide stimulating, enjoyable, satisfying and appropriately

challenging learning experiences for all pupils. Through selection and logically developed tasks, it is intended that pupils, irrespective of their innate ability, will enjoy success and be motivated to further develop their individual potential.

Pupils are encouraged to appreciate the importance of a healthy fit body, and begin to understand those factors that affect health and fitness.

Whilst retaining its unique contribution to a pupil's movement education, physical education also has considerable potential to contribute to much wider areas of learning. It is considered important that Physical Education is integrated into the whole school's planning for the development of the pupil's communication, numeracy, PSHE and ICT skills.

Curricular Aims

- To develop skilful use of the body, the ability to remember, repeat and refine actions to perform them with increasing control, co-ordination and fluency (acquiring and developing).
- To develop an increasing ability to select, link and apply skills, tactics and compositional ideas (selecting and applying).
- To improve observational skills and the ability to describe and make judgements on their own and about others' work, and to use their observations and judgements to improve performance (improving and evaluating).
- To develop an understanding of the effects of exercise on the body, and an appreciation of the value of safe exercising (knowledge and understanding of fitness and health).
- To develop the ability to work independently and communicate with and respond positively towards others (working alone and with others).
- To promote an understanding of safe practice, and develop a sense of responsibility towards their own and others' safety and well-being (applying safety principles).

Staffing

- PE lessons are delivered by the class teacher or specialist PE coach.
- It is the responsibility of the person delivering PE lessons to follow the curriculum guidelines set out by the P.E co-ordinator.
- The class teacher is responsible for monitoring the progress of the children in their class and reporting this on an annual basis.

Entitlement

The school provision for physical education is in line with the National Curriculum. Children are taught to:

KS1

- Master basic movements
- Participate in team games
- Perform dances using simple movement patterns

KS2

- Use running, jumping, throwing and catching in isolation and in combination
- Play competitive games, modified where appropriate and apply basic principles suitable for attacking and defending
- Develop flexibility, strength, technique, control and balance
- Perform dances using a range of movement patterns
- Take part in outdoor and adventurous activity challenges both individually and within in a team
- Compare their performances with previous ones and demonstrate improvement to achieve their personal best.

Swimming and water safety

Pupils are taught to:

- Swim competently, confidently and proficiently over a distance of at least 25 metres
- Use a range of strokes effectively
- Perform safe self-rescue in different water-based situations.

Schemes of work will determine the focus of each activity area, and the LCP schemes of work are followed. It is the aspiration of the school to provide two hours of high quality physical activity for each pupil each week. Pupils in both KS1 and KS2 will receive two hours of PE per week when possible. This includes changing time. In addition to this, the school will aim to provide the opportunity for each pupil to take part in physical activity in each key stage through our out of school hour's sports clubs.

Differentiation

In all classes there are children with a range of differing physical skills. We recognise this fact and provide suitable learning opportunities for all children by matching the challenge of the task to the ability of the child. We achieve this through a range of strategies, for example, in some lessons through differentiated tasks, and in other lessons by providing different sized pieces of equipment.

Activities will be planned to allow success and progression for all learners. Classes are grouped according to the needs of children and activities; sometimes according to ability and sometimes in mixed-ability groups.

Pupils who excel at PE can be given the opportunity to represent the school in competitive matches, tournaments, festivals and galas when feasible. It is the decision of the Class teacher, coach or club leader to select the children to best represent the school. Decisions should be respected, choices are not made lightly.

Assessment and Recording

Teachers report formally to parents/carers in the Annual Report to Parents

Continuity and Progression

- The P.E co-ordinator monitors the curriculum mapping for physical education across the school year, and monitors the effectiveness of the programme on an annual basis.
- The P.E co-ordinator monitors medium term planning termly.

Equal Opportunities

In Physical Education lessons, staff will not assume that interests and skills in this area of the curriculum are predetermined by ethnic background or by gender and do not permit themselves or their pupils to be influenced by stereotypical behaviour.

Our pupils have equal opportunities to develop qualities and skills in relating to co-operation and sensitivity, fair play and respect, the acceptance of decisions and rules and the handling of success and failure with dignity. All our pupils have equal access to the component parts of the physical education programme.

On the occasions that pupils are taught in single gender groups, this is for preparation for single sex team competition or for health and safety reasons.

TEAMS and representing the school

Teams are selected on best performance, skill and athletic ability, particularly for competition as the standard across the borough is very high.

Poor behaviour may result in children being excluded from representing the school.

The coach/teacher in charge has the final decision on teams put forward to represent the school.

Parents are expected to support and comply with both the 'supporter's code of conduct' and the school ethos. Decisions are never taken lightly.

Where possible 'friendlies and B/C team matches are organised. All children are able to attend the clubs for training purposes and to develop their skills. This is not true of all schools but we aim to promote health and fitness in as many ways as possible.

Safe Practice and Risk Assessment

The school's Health and Safety policy outlines the safe codes of practice for our school and provides the necessary guidance on the response and the reporting of all incidents.

'Safe Practice in Physical Education' Millennium Edition Published by BAALPE 2000

- No jewellery or watches may be worn for PE and long hair must be tied back. All children must change into different clothes for P.E and extra-curricular activities and wear appropriate footwear.
- Staff wear appropriate clothing for PE lessons.
- Any child unable to take part in PE due to medical reasons must bring a note from a parent or guardian to explain why.

Pupils who do not bring their PE kit in will not take part in the PE lesson and shall be required to observe other members of the class participating in the PE lesson. A record will be kept of those pupils who do not bring their PE kit in, and if this occurs on more than two/three occasions, then the class teacher will speak to parents to discuss why their child has not been bringing their PE kit into school.

Staffing and Staff Development

- Teachers are encouraged to attend CPD courses, which are arranged through the School Sports Partnership. The PE Co-ordinator informs all staff of the courses available and liaises with the Headteacher to ensure that funding is available.
- Where a specific skill or activity is being taught, every effort is made to support a teacher concerned about delivery.

As far as possible, the physical education curriculum will provide opportunities to establish links in with other curriculum areas. In particular we will endeavour to establish links between: Citizenship, PSHE, Numeracy, Literacy, Science, ICT, Music and Geography.

Extended Schools

The school believes it is of great benefit to provide a rich variety of extra activities for the pupils. These activities are led by staff and outside coaches at the end of the school day. Details of the wide range of clubs on offer are sent home to parents including information of extended opportunities available in the community, when such information is available. Clubs and activities are inclusive and open to all pupils irrespective of gender, background or ability.

Aims

- To provide opportunities for pupils to further develop skills and interest in particular activities for enjoyment and for the future.

- To support and enhance the school curriculum, including enabling, extending and extension activities.
- To provide further opportunities for pupils to work together in teams, being mutually supportive.
- To help provide a pathway for pupils into community sports clubs.

Adults Other Than Teachers (AOTTs)

Adults other than teachers (DBS checked) are used within school for one of the following:

- To lead or support a teacher in the delivery of an activity
- To run a taster session or an out of school hours activity or club.

The use of AOTT is arranged by the PE Co-ordinator in liaison with the head teacher..

Parents are encouraged to support their children when they are involved in sporting activities outside of the curriculum, but their behaviour must be in accordance with the Richmond Sports Developments Team's Code of Conduct for Spectators. Failure to abide by these rules will result in the individual being requested to leave.

Equipment and Resources

- Equipment for PE is stored in the PE shed, ball shed and the Hall. The PE co-ordinator is responsible for monitoring the PE Shed, although every teacher is responsible for ensuring it is maintained in an efficient and tidy manner.
- The PE co-ordinator is responsible for purchasing and maintaining equipment, which should be budgeted for out of the annual budget. Teachers make requests for PE equipment to the P.E Co-ordinator.

The Learning Environment.

- The hall is cleaned on a daily basis and after lunch to enable bare footwork in dance and gymnastics.
- A PE notice board is maintained by the PE co-ordinator and informs pupils of coming events, display pupils' work, to support subject knowledge and to celebrate achievement.

Monitoring and Evaluation

The purpose of monitoring and evaluation activities is to raise the overall quality of teaching and levels of pupil attainment. The PE co-ordinator monitors planning, children's participation and teaching on a regular basis. The Senior Leadership Team oversees the work of the co-ordinator and may carry out monitoring activities in line with the school's policy for monitoring.

PE is also monitored by the Governing Body through the work of the Curriculum and Achievement Committee, who will review this policy on a regular basis.

The named PE Governor (Christina Lingeman) meets with the PE co-ordinator and Head teacher annually to look at the impact of the Sports Premium Grant and to consider priorities for each new academic year.
