

## Exploring issues and dilemmas

Use the link and listen to the story up to 'It was an invitation to a Party.'

How do you think Halibut Jackson will feel about being invited to a party?

Who do you think the invitation is from?

What sort of party do you think it will be?

What do we know about Halibut and how he feels about being invited to a party?  
Should he go to the party?

What might happen if Halibut declines the invitation?

What could happen at the party that would be bad for Halibut?

Discuss - Should Halibut go to the party or not? Why? (You must use the conjunction 'because' in your reasoning.)

What would you do if you were Halibut?
